

***POWER OF PREDICTABILITY***

What does 69 years of breeding with the same goal in mind get you?

A consistent, predictable product that has stood the test of time.

***APRIL 3<sup>RD</sup>, 2025 • 1:00 P.M.***  
**49th Annual Production Sale at the ranch**  
**Selling 210 Bulls & 20 Top End Yearling Heifers**

[www.ArntzenAngus.com](http://www.ArntzenAngus.com)

Today it feels like we, and our fellow cattle producers, are in a unique and positive position in the industry – finally!

Recent years have continued to present challenges – drought, hoppers, increased input expenses, and mother nature have pushed many to the limits. As 2024 closed and 2025 is off to a confident start, there is a new-gained sense of optimism. It's one that can hold longevity with commodity prices high and low inventory numbers nationally and even globally. Although the past few years have not been nothing short of easy, those who have built upon and relied on the dependable Angus female will realize the invaluable benefits of the natural, maternal instincts, carcass quality, and efficiencies the Angus breed provides.

We value the confidence in the AAR program and trust in the Power of Predictability. Our philosophy stacks consistent and good genetics on top of one another from generation to generation. It allows a producer to realize those tremendous Angus traits with ease, year in and year out.

We're nearing the end of our 2025 calving season and are reminded of the importance of the predictable mother Angus cow. The well-mannered female with sound feet and good udder who consistently performs at AAR will always return to our breeding line-up - because nothing is more important to our operation than a predictable mother cow.

We're pleased to introduce this year's set of bulls – of which stem from those predictive and productive females that uphold our Power of Predictability. The newer sire groups this year include: Koupals B&B Bridger 2041, Simonson Stryker 942, and A A R Midas. We continue to hold confidence in the performance of a few of our favorites like KG Justified 3023 and GDAR Load Up 7104 – you'll see a number of sons from these sires as well.

We cull the bottom half of our crop to ensure the best product for our customers. They were raised without creep and their feet have not been trimmed. As in the past, they are developed at Hould's Feedlot at Malta; and Bruce and his crew excel in preparing our bulls. The bulls are fed a high roughage ration to ensure structural soundness when they arrive to your pasture.

All of the bulls have had a fertility examination and have been DNA tested through Zoetis HD50K or Neogen Angus GS. This additional DNA analysis provides increased accuracy of each animal to improve confidence in your purchase. In addition to our yearling bulls, we are also offering 20 high-quality yearling registered heifers that are an intentional example to the maternal emphasis we hold.

We extend a special thanks to our operations' help. We are fortunate to have Logan and Megan Tomschin on our team. Their day-to-day help keeps the operation moving forward in a calm and consistent method. We are excited to have Brace and Haley Pingetzer and their young family on board. They have only been here for a couple of years but fit in great, and have become very valuable assets to both the ranch and community.

We are eager to gather on April 3rd at the ranch! Join us for a CAB lunch at noon with the sale following at 1:00. The sale bulls are available for inspection at the ranch anytime. We will also host a meal on Wednesday (April 2nd) evening at 5:30 at the sale barn. This is always a great time to preview the cattle, or just catch up with friends. If you cannot make the sale, it will be broadcast on Northern Livestock Video. Please contact any of us with questions – we are looking forward to April 3rd!

**Delivery**

Free delivery in Montana. Out of state delivery at cost. We enjoy delivering your cattle, but due to the busy season, we will rebate you \$100 per bull or \$50 per registered heifer that are picked up within 4 days of the sale. Commercial heifers are delivered at cost. We'll come and visit at a more convenient time.

**Terms & Conditions**

This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association. Announcements from the block take precedence over information in this catalog.

**Additional Information**

Additional information will be available sale day. You can also check our website for current information and updates. Videos of the bulls will be available in mid-March at www.arntzenangus.com.

**Genomic Enhanced EPDs**

All of the bulls in the sale offering have had additional DNA testing to increase EPD accuracies and predictability. These animals are identified by the AngusGS and HD50K logos.

**References**

American Angus Association®, AHIR®, Angus Source®, CAB®, Pathfinder®. EPDs current as of February 28, 2025. Updated EPDs can be viewed at: www.angus.org and www.arntzenangus.com.

**Liability**

Arntzen Angus Ranch will not be held responsible for any accidents.

**Retained Interest**

We will be retaining a 1/3 revenue share interest on all bulls selling.

**Health**

All cattle selling are cleared for interstate shipment. All bulls have been fertility tested. All sale lots are free of all known genetic defects. NO CARRIERS SELL! All cattle are guaranteed. We expect them to perform for you. Please notify us if you have an injury or a breeding problem. Special thanks to Dr. Paul Brady and Dr. Greg Carlson for herd health assistance.

**Online Bidding**

Bid through Northern Livestock Video Auction's NEW Online Bidding Platform! Desktop and Mobile Friendly!

**For the Desktop:** It is best to use the Google Chrome web browser. Pre-Register at least one day prior to the sale. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid". Doing this will prompt you to create an account, after which you will fill out a bidder approval application. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

**For the Mobile:** Use your mobile device to download the Northern App and follow the above steps to get approved. There is an instructional video on how to register to bid on our website, www.northernlivestockvideo.com if you have any questions.

**For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.**

**Phone Bidding:** Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone.

**To register with NLVA call 866-616-5035 Before Sale Day.**

View the Online CATALOG and VIDEO CLIP of each BULL selling at www.northernlivestockvideo.com

Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

Northern Livestock's Sale Day Bid Line: **1-406-245-0889.**

**Accommodations**

There are several nice motels in Lewistown. We would be happy to make your reservations for you.

Yogo Inn . . . . .	406.535.8721
Super 8 Motel . . . . .	406.538.2581

Calving Ease ★★		Dam Production 4 WR 105 3 YR 109				

## Calving Ease Codes

In an effort to assist our customers with calving ease, we use a four star scale. We feel you can moderate birth weights and calving ease without giving up that much growth. But with the higher birth EPD and birth weight bulls, you can still expect a greater increase in weaning and yearling weights. We have coded the bulls in the following way.

- ★ Recommended for cows only.
- ★★ Mainly for cow use. Although some two star bulls would work on large capacity heifers. Their birth weights and EPDs combined with their pedigree would make them hard to recommend.
- ★★★ For heifer use. Many of these bulls will have the genetics to go on and be used on cows.
- ★★★★ For heifer use. These will be the easiest calving bulls of any in the sale.

## Pathfinder® (#)

The pound sign in a pedigree represents an animal that has qualified as a Pathfinder®.

In order for a cow to be qualified as a Pathfinder® she must meet three criteria:

1. Their first calf must be born near the herds average age for first calving.
2. They must maintain a regular calving interval. The maximum calving interval is 365+ (30 days/number of calving intervals).
3. The cow must produce at least 3 calves with an average weaning weight ratio of 105 to qualify for the report. A minimum of 10 contemporaries must be evaluated together each year to determine the weaning weight.

We put a lot of value in Pathfinder® cows. We feel that it is a very good way to sort out the superior cows. Some of our top cows still won't qualify for Pathfinder® for reasons that are out of our control. Some such reasons would be flushing a cow, or if a calf dies.

## Docility (Doc)

*Docility is something that we have focused on since we started in the Angus business over 60 years ago. The American Angus Association is now producing a docility EPD that we are finding to be very valuable as an assist for a purchaser when looking at temperament of a bull. We decided to include it in the lot block with a higher number being more favorable.*

*Below is the American Angus Associations definition.*

Expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

# Selection Tools

## Maternal Weaned Calf Value (\$M)

Maternal weaned calf value (\$M) is the most maternally-focused selection index currently available to Angus members and commercial users of Angus genetics. \$M, expressed in dollars per head, aims to predict profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves.

\$M places greater emphasis on the cost side of commercial cow-calf production than any tool available in the past. Increased selection pressure on \$M aims to decrease overall mature cow size while maintaining weaning weights consistent with today's production. Under \$M selection, less emphasis is placed on maternal milk, while heifer pregnancy and docility have an increased emphasis, and foot traits start to improve. The index finds cattle that are most profitable when producers receive no economic benefit for traits affecting post-weaning performance.

For example if Bull A has a \$M of +75 and Bull B has a \$M of +55 and both are mated to a comparable set of females, one would expect, on average, for Bull A's progeny to be \$20 more profitable per head for the cow/calf producer.

*EPDs directly influencing the index include: calving ease direct and maternal, weaning weight, maternal milk, heifer pregnancy, docility, mature weight as well as foot angle and claw set.*

## Weaned Calf \$Value (\$W)

Weaned calf value (\$W) provides the expected dollar-per-head difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Overtime, increased selection pressure on \$W will increase weaning and yearling weight traits while also continuing to increase mature cow size. As with any \$Value, \$W only has meaning when used in comparing the relative merit or ranking of two individuals.

*EPDs directly influencing \$W include: birth weight, weaning weight, maternal milk and mature cow size (MW).*

## Combined Value (\$C)

Combined Value (\$C), an index, expressed in dollars per head, which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

## Heifer Pregnancy (HP)

*Another EPD that we have started watching very closely is Heifer Pregnancy. You will see it mentioned in our footnotes. A higher number is more favorable. We often times refer to it in % Ranking against the rest of the breed. In that situation, 1% is the best with 95% being the poorest.*

*Below is the American Angus Associations definition.*

A selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

# Don't buy an **imposter.**

Not all "Angus" bulls are **REGISTERED** Angus bulls.

If you see this logo in conjunction with an individual animal or group of animals, you know that that animal is registered with the American Angus Association and backed by the power of **data, programs** and **pedigrees** of the Association.

Invest wisely in those that carry the **Powered By Angus** logo.

# DEDICATED. COMMITTED.

WHOLE HERD REPORTING WITH MATERNALPLUS

## DEDICATED TO DATA.

Dedicated to Data. We devote extra time to collect maternal traits beyond those required to target greater performance and predictability. Our goal is to not only to improve our genetics today, but also prepare for the future of the Angus breed.

## COMMITTED TO IMPROVEMENT.

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously. That is why we believe a commitment to the female starts with Maternal Plus.

Contact AGI at 816-383-5100 or [agi@angus.org](mailto:agi@angus.org) for more information

# ANGUS

THE BUSINESS BREED

AAR is passionate about the mother cow and she truly lies at the heart of our program. The maternal characteristics of our herd heavily influence our end product to our customers - quality & predictable bulls that will add value and profitability for our customer.

**Maternal Plus**

**Maternal Plus™ is a voluntary program that emphasizes the importance of the female and maternal-focused EPDs. These will continue to improve the industry and add transparency for our customers.**

### Whole Herd Reporting

- We report a starting inventory for each animal every year.
- Report breeding dates and sires.
- Report animal disposal dates and reason, such as death or reason sold.

*This data is being used towards a longevity EPD to target animals whose offspring tend to 'stick around' longer. A long term producing cow is one of the most profitable units to a rancher's bottom line.*

### Foot Scores

- We score 2x annually: at weaning & at calving.
- Feet can change considerably in a year's time.

*We cull feet harder than any other trait – if an animal won't travel, they won't work.*

### Udder Score

- We score annually at calving.
- Our preferred evaluation is after the cow has calved, but before the calf nurses for the first time.
- We evaluate the teat size and udder suspension.

*Udder scoring plays into our culling decisions. We look for newborn calves to nurse without assistance.*

### Body Condition, Height, Weight & Disposition

- All 4 metrics taken annually at weaning.
- Reported annually to Association.
- Association can monitor the lifetime development of an animal.

*Continual reporting of this information aids in phenotypical assessment and decision making for our breeding and culling decisions.*

# ARNTZEN ANGUS

# Signature FEMALE SALE

This year we will be working on our 4<sup>th</sup> Annual Arntzen Angus Signature Female Sale. We could not be more pleased with how it has progressed. The quality of cattle and interest in the animals seems to be gaining momentum. We saw cows and bred heifers set a tone for the bred female

market, and were some of the best prices seen around the country. We feel the future is bright and would like the opportunity to help market your females with strong genetic influence from AAR. The fourth annual commercial female sale will be held on Friday, November 14 at Lewistown Livestock Auction. We are offering our customers a platform to market high quality replacement and bred females. We encourage cattle with heavy influence of Arntzen Angus genetics and bred to AAR bulls. The sale is a well-advertised event sponsored by Arntzen Angus.

Let us know if you are interested in consigning females. Any size consignment is welcome. Please let us know if we can assist with selections. Contact Kevin, Brad, Derik, or Kyle Shobe at Lewistown Livestock Auction or Dan Deichmann at Deichmann Livestock Brokerage with questions or to get consignment details and information.

Hello Cattlemen and Cattlewomen;

Without hesitation it's my pleasure to recommend Arntzen Angus Ranch as your place to purchase Angus bulls and females. The genetic advantage of over seventy years comes together with each load of steers we ship with the AAR prefix behind their sires. Add to that the bonus of the Arntzen Signature Female Sale sponsored for their customers. Now in its fourth year, it's an opportunity to add value and capitalize on the female side of your program sired by AAR bulls. Note the results; the quality of these females sold and the premiums garnered by their sellers, and the total positive acceptance of their buyers.

The Arntzen family stands behind the bulls and females they sell and is at the forefront of the bull business offering a marketing advantage for their customers. DLB stands ready to purchase your feeders and replacement females. We offer a 100% sight unseen guarantee for any bulls we purchase for you if you can't get to the sale. Give us a call to visit about this very select bull offering.

Sincerely,

Dan & Marilyn Deichmann

- We purchased Agenda with Math Farms out of the 2022 Woodhill Sale.
- He is a legitimate calving ease bull that still puts a lot of muscle and shape in his calves.
- He has really excelled by siring exceptional foot quality and docility. His first set of daughters are off to a great start being good new mothers.
- He boasts an average birth ratio of 98 on 145 calves and average weaning ratio of 102 on 141.

- We can't say enough about Justified. Very few sires have influenced our herd like he has.
- We bred him last spring for the 10th and final time.
- We can't have too many Justified daughters. They are moderate framed, easy fleshing, femine with very good udders and feet.
- He sires calving ease with excellent muscle shape and big scrotals. His 1571 daughters have 3027 nursing ratios averaging 101.

- We selected Hannibal out of the 2021 Pine Coulee Bull Sale. He stems from an outstanding dam, Pine Coulee Everelda W3, and we feel the outcross on Onward was just right. She adds frame fertility and structural soundness.
- Look to Hannibal for calving ease, length and eye appeal.

- A A R Tahoe 2017 was a highlight of our 2023 Annual production sale selling to Nelson Angus Ranch, Salmon ID. He is a bull we chose to plug back into our herd because of his moderate frame, thick quarter and excellent feet. They calve easy, are big topped, and his first set of daughters look great.

• Millars Duke 129 is a bull we were very excited to come across. We had been looking for a bull from the "Windy" line to bring back those great genetics and he fit perfect. "129" is the perfect blend of easy calving, good growth with a little extra frame to increase performance on a more moderate animal. He is sound made, with good thickness and his daughters look great.

## DIAMOND GOALKEEPER J160

• We selected Goalkeeper out of the Stevenson Diamond Dot program. He was a standout in the coming two year olds in their 2022 sale.  
• He sires powerful growth, little added frame and carcass merit. He has remained very sound and easy keeping. We plan to incorporate more of Goalkeeper in the future.  
• His dam was home raised and we decided to sell in the NILE female sale going to Gary Wall. She is an embryo transplant daughter of Blackbird 9044.

- Top feedlot performance on this nice Bridger son.
- Dam has really good feet.
- Pathfinder® Granddam 11 WR 101, 9 YR 104
- Pathfinder® Great Granddam 13 WR 103, 13 YR 102

If you are looking to breed consistent cattle with loads of maternal and performance, here is a unique opportunity to pick through three full brothers. These are as good of genetics as you can find. Their sire, A A R Justified 8244, is one of the best Justified sons that has been raised to date. The dam, A A R Ankonian 8706, is one of our favorite cows. She is deep bodied and clean fronted. Her feet are near perfect and she has a great udder. Both the Granddam and Great Granddam are Pathfinder®s. A A R Ankonian 4015 is one of our top all time cows. She was a "stop you in your tracks" kind of cow. Moderate and deep. Easy to be around and super sound structurally. You will want to keep every daughter out of this great flush.

- This has been one of my favorite Bridger bulls since early spring. Loaded with eye appeal
- Strong \$ figures top 3% \$M and 15% \$C
- Dam is one of many Blackbird 9044 daughters in production. She is an easy keeping deep ribbed cow.

# MOST VALUABLE PLAYER.

Bulls get a lot of hype. And rightly so. But, the Angus cow? Now, she's valuable.

She adds a lot to your business. She's maternal. She works in any environment. And, she's always at the top of her game delivering better calving ease, milk, faster growth and superior marbling genetics. Make America's cow your Most Valuable Player.

Angus. America's Breed. Learn more at [www.Angus.org/BusinessBreed](http://www.Angus.org/BusinessBreed) or call 816-383-5100.

**ANGUS**  
THE BUSINESS BREED

# YOU'VE DONE THE WORK.

Get paid for it.

---

Get paid for the **records**.

Get paid for **quality** genetics.

Get paid for the power of **Angus**.

In 2021, AngusLink calves  
earned an average  
**PREMIUM of \$13.01/cwt.**

AngusLink<sup>SM</sup> combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves. From age and source verification to cattle care and handling, you choose which programs make the most sense for your operation.

VALUE ADDED PROGRAMS

# Registered Heifers

## 20 ELITE REGISTERED HEIFERS

Offering 20 of our elite yearling heifers picked right off the top. All registered heifers have been Angus GS DNA tested to increase EPD accuracies and predictability. We will be offering to breed and pasture these registered heifers until mid-August at cost of \$250. Heifers will be guaranteed bred.

# *Special Thanks* to all of those who make our program successful!

**Thanks to Mike Vanek and his crew, and Karla Knox and Jolene Ehlert for their great job clipping the cattle. Amber Arntzen for advertisements and her work on the sale catalog. As well as George Fisher for his help parking cars on sale day.**

**Logan & Megan Tomschin**

**Brace & Haley Pingtzer**

**Dr. Greg Carlson and Jeremy England, with the crew for fertility testing.**

**Doug, Todd and Kevin with Bruce and Linda Hould, owners of Hould Bull Development Center in Malta, MT. Thank you for all the hard work that you do in developing the bulls.**

**Kimberly Hansen, photographer, and crew**

# Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	28	Milk	33
Birth Weight	21	Mature Weight	11
Weaning Weight	26	Mature Height	8
Yearling Weight	21	Carcass Weight	9
Dry Matter Intake	8	Yearling Height	11
Scrotal Circumference	13	Carcass Marbling	9
Docility	10	Carcass Ribeye	12
Heifer Pregnancy	14	Carcass Fat	10

## How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k or i50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

# Why Angus?

This chart demonstrates Angus cattle provide the best combination of growth, calving ease, and carcass traits relative to other breeds.

## Angus Offers the Best Combination of Growth and Calving Ease

*Average EPDs, 2014 Birth Year, Angus Base*

Breed	BW EPD	WW EPD	YW EPD	Milk
Angus	1.3	51	91	23
Hereford	5.6	40	49	3
Red Angus	1.2	26	53	23
Charolais	8.5	62	89	17
Gelbvieh	3.3	43	68	29
Limousin	3.6	45	51	13
Simmental	5.1	54	81	26

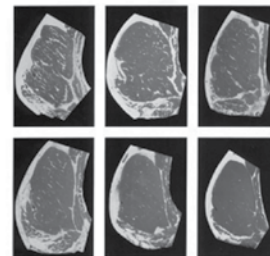

Kuehn and Thallman, 2016

## Angus is Highest for Marbling and Carcass Weight

*Average EPDs, 2014 Birth Year, Angus Base*

Breed	Marbling EPD	Carcass Weight EPD
Angus	0.59	33
Hereford	-0.22	2
Red Angus	0.18	11
Charolais	-0.29	30
Gelbvieh	-0.18	28
Limousin	-0.44	15
Simmental	-0.20	32

Kuehn and Thallman, 2016

# Sale Notes

**Thank you to all those who have made the last 49 years a wonderful success!**

*After 69 years of breeding Angus cattle, our philosophy at Arntzen Angus Ranch has stayed the same. We breed cows to be trouble free. They must be easy fleshing, high capacity cows with good feet and udders. Late calvers and poor dispositions are not tolerated. We want light birth weight and moderate framed calves, with exceptional growth and thickness. A strong emphasis is also put on maternal and carcass traits.*
